

IVANNE

MATERIALS

IVANNE is beautifully crafted from solid reclaimed elm wood known for its strength, durability and beautiful grain. Blemishes and knots are all part of the unique, natural beauty of old timber and each furniture piece is unique.

PRODUCT CARE

Tables are all treated and sealed for everyday living, but it is important to be mindful in their placement, as extreme conditions (such as harsh Australian sun) can change the colour of the timber.

We also recommend using placemats and trivets to avoid spills that can soak in to the timber. Should spills occur, wipe immediately with a damp cloth and mild soap - do not use acid or bleach based cleaners. We suggest Sure Seal Sealants to help protect your furniture.

PROTECTION

To keep your IVANNE piece in optimum condition, a traditional wax polish can be used sparingly every six months (always test an unseen area first to check for colour changes).

Sure Seal Timber sealer will provide a barrier to some degree between the timber and any spills of red wine, oils etc - but always clean spills immediately. Sure Seal also provides some protection against day to day scratches.
