

RAPHAEL

MATERIALS

MAIN fibre-reinforced cement with stone powder & natural latex-based waterproofing

CUSHIONS Synthetic weather resistant fabric

PRODUCT CARE

RAPHAEL pieces are hand made in Vietnam with a composite material of natural fibres, cement, stone powder and natural latex-based waterproofing agent making the range durable and suitable for both outdoors and commercial use. While it is heavy each piece is fragile and should be treated with the utmost care when transporting, assembling and placing the pieces. The units are all lightly sealed with a wax sealant. Repeat periodically to prevent staining. Spills should be wiped up immediately. Owing to materials used, natural colour variations will occur.

PROTECTION

Stone elements - To minimise oil marks, RAPHAEL pieces are finished with a paraffin wax which provides a degree of protection against most day-to-day substances. However, oils and red wine can penetrate the surface and extra care should be taken to avoid spills of this nature. We recommend applying an even coat of paraffin wax every 6-8 months to help protect the surface of the table. To apply, rub a small amount evenly over the entire surface of the table with a soft cloth. Incorrect application of sealers and/or cleaners or allowing insufficient drying time voids the warranty.

CUSHIONS

The fabric used on the Raphael stone modular sofa is a synthetic weather resistant fabric. Regularly wipe down with a lint free cloth regularly to prevent dirt embedding in the fabric. For a thorough treatment we recommend that the fabric is cleaned by professionals. Use a qualified fabric protection service to apply a protector such as Scotchgard. The fabric will fade over time if left in full sun. To extend the life of the fabric and cushion interior we recommend that cushions are stored out of direct sun and rain when not in use. To avoid mildew cushions should be completely dry before storage

GOOD TO KNOW

If the table has fasteners, they may loosen over time so check periodically to ensure still tight. We highly recommend professional assembly arranged through our stores. If required please ask a staff member for individual weights. Repair kits are available for small chips.

One year warranty for major manufacturing defects. Warranty does not cover damage in transit, handling or relocation. Due to the nature of the material, natural colour variations will occur over time. Care instructions must be followed.

Sure Seal grout and tile sealer protects against water and oil based staining, but always wipe spills immediately. Sure Seal also provides some protection against day-to-day scratches and resists UV degradation.
