Solid oak

PRODUCT CARE

ITAMAE dining tables are crafted from solid oak, known for its strength and durability. These tables are treated and sealed for everyday living, to provide limited protection in everyday use. It is important to be mindful of placement, as extreme conditions (such as harsh Australian sun) can change the colour of the timber.

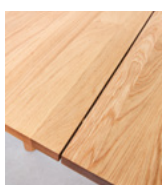

We recommend using placemats and trivets to avoid spills soaking into the timber. Should spills occur, wipe immediately with a damp cloth and mild soap. Do not use acid or bleach-based cleaners.

PREVENTATIVE CARE

Suitable for indoor use only. A traditional wax polish can be used sparingly every six months (always test an unseen area first to check colour changes). Sure Seal timber sealer also provides some protection against day-to-day scratches.

DIMENSIONS

sm180x90xH76cm | lge 240x96xH76cm.
Please note all dimensions are approximate.

Sure Seal Timber sealer will provide a barrier to some degree between the timber and any spills of red wine, oils etc - but always clean spills immediately. Sure Seal also provides some protection against day to day scratches.
