

## SNOW FIR CHRISTMAS TREES

### SETUP INSTRUCTIONS

**1.** Fan out metal stand so that legs are at a 90° angle and fix in place.

**2.** Assemble all trunk sections onto the base to create full height trunk, including final branched top section.

**3.** Add the branches to the trunk by starting with A (a-red) at the top. All same colour coded branches should be hooked into the housing found at that point on the trunk. Follow with b, c, d etc until all levels have been added, from top to bottom.

Colour codes dependent on size of tree:  
 DEC3827: A -Red, B-Yellow, C-Blue  
 DEC3828: A-Red, B-Yellow, C-Blue, D-White, E-Brown, F-Green  
 DEC3829: A-Red, B-Yellow, C-Blue, D-White, E-Brown, F-Green, G- Black, H -Red, I - Yellow, J - Blue.

**4.** Open up the leaves by gently adjusting them away from the branch.

Fan leaves to the right and left of branches to create a full, natural look.

snow christmas trees have thousands of needle tips in multiple shades to create a beautifully full, natural and timeless appeal
