

**MATERIAL**

Woven thermoplastic polypropylene (PP) fibre rope seats

Powder-coated Aluminium frame

**dining chair**

53x62xH82cm
seat height: 45cm

CHA210

**occasional chair**

70x78xH71cm
CHA211

PRODUCT CARE

For the rope wash with a non-foaming mild detergent twice a season or as required. Wipe the fibre with a damp cloth for everyday maintenance. Use a soft nylon brush or low-pressure hose to clean in between the weaving (outdoor furniture only).

For the powder-coated Aluminum frame regularly, or as required, gently clean with water and a mild liquid detergent to remove any dirt or splashes. Wipe down with a soft microfibre cloth or sponge, and ensure the aluminium is dry to avoid water spots.

Do not use harsh chemicals or abrasive cleaning agents.

If in close proximity to the sea, rinse frequently to remove corrosive salt spray.

PREVENTATIVE TREATMENT

Use Sure Seal Rug & Carpet Protector or similar product. Follow instructions on pack carefully as incorrect application voids your warranty.

Allow to thoroughly dry out once wet as mould will develop if it remains damp.

This is available at papaya.com.au/brands/sure-seal or your local Papaya store.
