## material

The Cavalier collection is made from solid teak. Each item has its own character as the grain is unique in each piece of timber. Because of the naturally high oil content of teak, it is both stable and resistant to most weather conditions, making it suitable for outdoors.

Fine cracks may appear due to changes in temperature and humidity and the consequent change in moisture content of the wood. This is perfectly normal for teak and will not affect its serviceability.

## product care

The Cavalier does not require any special maintenance or protection apart from occasional cleaning. Left to age naturally if outdoors, it will gradually change from its original colour to a soft, silver-grey as the pigments in the surface layer of the wood begin to fade.

We recommend that you allow it to weather naturally and simply clean thoroughly once or twice a year with Teak Cleaner to remove accumulated dirt. Never use a power washer. Treating with teak oil or other preservatives is a personal preference and will prevent some of the pigment change, but is purely cosmetic and will not extend the life of your furniture.
