

COVE DINING TABLE

Solid oak

COVE DINING TABLE  
TAB367

PRODUCT  
CARE

Suitable for indoor use only. COVE dining tables are sealed to provide limited protection in everyday use

Use a damp cloth to clean periodically. Always use placemats and trivets to avoid spills soaking into the timber. Wipe spills immediately with a damp cloth and mild soap. Do not use acid or bleach-based cleaners.

Be mindful of placement as extreme conditions (such as harsh Australian sun) can change the colour of the timber

PREVENTATIVE  
TREATMENT

A traditional wax polish can be used sparingly every six months (always test an unseen area first to check colour changes)

Sure Seal timber sealer can provide protection against day-to-day scratches as a barrier between the timber and any spills of red wine, oils etc - but always clean spills immediately
