MATERIALS

Top

Side table & coffee tables with a concrete top. Console has a reconstituted natural stone top (a composite material of stone, river and lava sand in a resin base)

Legs

Hand-finished solid acacia wood

PRODUCT CARE

Satthi pieces are finished with a paraffin wax which provides a degree of protection against most day-to-day substances. However, oils and red wine can penetrate the surface and extra care should be taken to avoid spills of this nature. While it is heavy each piece is fragile and should be treated with the utmost care when transporting, assembling and placing the pieces.

Suitable for indoor use only. Extreme conditions will affect the table so consider this in its placement and keep out of direct sunlight.

PROTECTION

For general maintenance use a damp cloth and mild soap for periodic cleaning. A colourless paraffin wax should be applied every six months to maintain the stone surface.
