

ISLAND

MATERIALS

The Island collection is handmade in Indonesia and is suitable for outdoors.

FRAME Solid teak with polypropylene woven rope.

FABRIC 100% Olefin fabric which is a synthetic weather resistant fabric.

PRODUCT CARE

CUSHIONS Wipe down with a lint free cloth regularly to prevent dirt embedding in the fabric. However for a thorough treatment we recommend that the fabric is cleaned by professionals and use a qualified fabric protection service to apply a protector such as Scotchgard. The fabric will fade over time if left in full sun.

To extend the life of the fabric and cushion interior we recommend that cushions are stored out of direct sun and rain when not in use and to avoid mildew cushions should be completely dry before storage. Incorrect application of sealers and/or cleaners or allowing insufficient drying time voids the warranty.

TIMBER Teak does not require any special maintenance routine or any additional protection apart from occasional cleaning. Left to age naturally outside, teak will gradually change from its original colour to a soft, silver-grey patina as the pigments in the surface layer of the wood begin to fade away. Papaya recommends that you allow the teak furniture to weather naturally this way and simply clean thoroughly once or twice a year to remove accumulated dirt. Natural variations in the teak finish will occur.

GOOD TO KNOW This product is fully assembled. Please note all dimensions are approximate.

Sure Seal Timber and Rug & Carpet sealer will provide a barrier to some degree between the timber and any spills of red wine, oils etc - but always clean spills immediately. Sure Seal also provides some protection against day to day scratches & wear
