TAB305 | console
140x40xH85cm

MATERIALS

Top

Fibre-reinforced concrete (composite material made of natural fibres, cement, stone powder)

Legs

Powder-coated steel frame

PRODUCT CARE

Folio pieces are finished with a paraffin wax which provides a degree of protection against most day-to-day substances. However, oils and red wine can penetrate the surface and extra care should be taken to avoid spills of this nature. While it is heavy each piece is fragile and should be treated with the utmost care when transporting, assembling and placing the pieces. If the table has fasteners, they may loosen over time. Check periodically to ensure all fasteners are still tightly in place.

Suitable for indoor & outdoor use. Extreme conditions will affect the table so consider this in its placement and keep out of direct sunlight.

PROTECTION

For general maintenance use a damp cloth and mild soap for periodic cleaning. A colourless paraffin wax should be applied every six months to maintain the surface. Repair kits are available for small cracks and chips.

some assembly required
