TAB315 | dining table - lge
240x100xH76cm
top 69kg | legs 12kg

MATERIALS

Top	Solid teak
Legs	Powder coated aluminium

PRODUCT CARE

Suitable for outdoor use. Wash with a soft cloth and a mild soap, ensuring no residue is left on the table. Never use a power washer.

Table top can be cleaned once per year with a teak cleaner to remove accumulated dirt. Fine cracks may appear in the table top due to changes in temperature and humidity and the resultant change in moisture content of the wood. This is perfectly normal for teak and will not affect its serviceability.

PROTECTION

Teak will age naturally over time. It will gradually change from its original colour to a soft, silver-grey as the pigments in the surface layer of the wood begin to fade.

Treating with teak oil is a personal preference and though it's use will prevent some pigment change, is purely cosmetic and will not extend the life of the furniture.

some assembly required
